Infrastructure & Transport Finance | Structured Finance · Debt Origination · Financial Modeling | ENPC Paris

EXECUTIVE SUMMARY

Infrastructure finance professional with over 4 years on the sponsor side of Project Finance, focused on asset management, delivering €1.2B+ in PPP value across hospital concessions and toll-road portfolios. Non-recourse debt oversight, DSCR/covenant monitoring and cash flow waterfall analysis transfer directly to lender negotiation and financing execution. Building on an ENPC Master in Infrastructure Project Finance, transitioning into debt structuring.

PROFESSIONAL EXPERIENCE

SACYR — PPP SPV Manager, Finance & Concession Management, Madrid, Spain *Sep 2024–Sep 2026*

- Owned the integrated project finance model (base case, scenarios, sensitivity analysis and cash flow forecasts) for a €100M availability-based PPP hospital concession, underpinning P&L management and board decision-making.
- Certified quarterly DSCR and covenant compliance under non-recourse debt documentation, delivering reporting to senior lenders and shareholders.
- Coordinated covenant waivers and lender information obligations, managing the relationship with senior lenders through the financing documentation lifecycle.
- Acted as primary interface between the contracting authority, shareholders and O&M operators, assessing the financial impact of concession variation events.

SACYR — PPP Concession Analyst, Financial & Operational Performance, Madrid, Spain *Apr 2023–Oct 2024*

- Maintained financial models for a 7-asset toll-road PPP portfolio representing over €1.15B in initial construction investment, tracking actual-vs-budget performance and long-term cash flow forecasts.
- Monitored debt covenants and compliance across the portfolio, flagging risk triggers and preparing monthly variance analysis for senior stakeholders.
- Reviewed financing documentation and concession contracts to identify obligations and lender protections, coordinating amendments and waivers with legal advisors.

ACCIONA — Infrastructure Project Controls Engineer, Barcelona, Spain *Mar 2022–Apr 2023*

- Monitored project costs against budget for an infrastructure portfolio exceeding €50M, preparing monthly certifications and cost-to-complete forecasts.
- Quantified the financial impact of change orders and claims, liaising between site operations, technical office and finance teams.
